SKILLS: AWS, Docker, Kubernetes, Terraform, Ansible, Cloudformation, Jenkins, Packer, Git, Jira, Bash, Python

PROFESSIONAL SUMMARY

With 10+ years of dedicated experience in Linux system administration and automation, I bring a robust skill set to DevOps environments. Proficient in Linux, Ansible, AWS, Terraform, Kubernetes, docker and well-versed in CI/CD principles with Git and Jenkins, I possess a self-driven approach, capable of accomplishing tasks with minimal supervision. One of my strengths is my continuous commitment to learning, which ensures adaptability to evolving technologies and challenges.

CERTIFICATIONS

AWS Certified Developer - Associate   **Certified Kubernetes Administrator - CKA**

RedHat Certified Engineer (Ansible)- RHCE   **RedHat Certified System Administrator - RHCSA**
